

*Electric rotation tensioner EDS-250, bolting of rudder propellers*

*Hydraulic bolt-tensioning cylinder DR 2.2, bolting of construction-machine chassis*

*Electric rotation tensioner EDS-150, bolting of large roller bearing on construction machine*

ITH is a system supplier providing a complete package consisting of special bolts and the correct machines for tensioning them.

The leading position on the market enjoyed by ITH is reflected in the following facts:

- worldwide distribution network
- international patents
- expert advisory service by qualified mechanical engineers (not salesmen) in all questions involving bolts
- decades of experience in the bolting sector
- lean production
- fast service
